Privileging by the (ICD-9) Numbers

Panel Presentation by:
Jana Darnell, CPMSM, CPCS  Product Manager, MIDAS+ Seeker, ACS MIDAS+
Eugene Fibuch, MD  Assoc. Dir. Medical Affairs, Medical Dir. for Quality - Saint Luke’s Hospital, Kansas City, MO
Christopher J. Heller, MD, FACS  Corporate Medical Director - ACS MIDAS+
Gregory Hobbs, MD, MPH, FACEP  Senior Vice President and Medical Director - ACS Healthcare Solutions, Georgetown, TX
Henry Johnson, MD, MPH  Medical Director, Clinical Decision Support, ACS MIDAS+
Mark Tuckfelt, MD  Vice President Medical Affairs, Orange Regional Medical Center, Goshen, NY
**Track Session Description**

This presentation will describe a core privileging method that maps over 1000 individual ICD-9 procedures to a set of specialty-specific core and special request privileges. This approach allows procedures to be mapped to more than one department or specialty, and permits customization by hospital to account for procedures not done at the hospital.

Tracks B and C are combined for this panel discussion.

**Post-Symposium Availability**

Shortly after the conclusion of the Symposium, most General Session and Track Session presentations will be available for viewing and downloading by licensed MIDAS+ clients from our Web site: www.midasplus.com. The presentations are available both in PDF and native Microsoft PowerPoint format.
Core Privileges

2005

The Candidate

Has successfully met the requirements for hospital staff membership and now is requesting PRIVILEGES

Qualifications

Successful completion of a formalized general surgery residency and in active participation in the examination process leading to board certification
Privileging by the (ICD-9) Numbers

14th Annual MIDAS+ Symposium
Tucson, Arizona

Phase 1

General Surgery Menu
- Inguinal Hernia
- Breast Biopsy
- Open Cholecystectomy
- Right Colectomy
- Thyroid Lobectomy
- Appendectomy
- Greater Saphenous Stripping
- Modified Mastectomy
- Lysis of Adhesions
- Open Liver Biopsy
- Small Bowel Resection
- Colostomy

Approved

Why?

Phase 2

General Surgery Menu
- Inguinal Hernia
- Breast Biopsy
- Open Cholecystectomy
- Right Colectomy
- Thyroid Lobectomy
- Appendectomy
- Greater Saphenous Stripping
- Modified Mastectomy
- Lysis of Adhesions
- Open Liver Biopsy
- Small Bowel Resection
- Colostomy
Privileging by the (ICD-9) Numbers

14th Annual MIDAS+ Symposium
June 2005
Tucson, Arizona

General Surgery Privileges

- CORE
  - Thyroidectomy
  - Parathyroidectomy
  - Adrenalectomy
  - Total Splenectomy
  - Lymph node dissection, axillary, inguinal, retroperitoneal
  - Incision, excision, resection stomach
  - Selective vagotomy
  - Incision, excision, resection small bowel
  - Incision, excision, resection colon
  - Management of perianal disease
  - Incision, excision, resection biliary tract
  - Incision, excision pancreas
  - Repair abdominal wall hernias
  - Repair hiatal hernia
  - Exploratory laparotomy
  - Repair chest wall fractures, injury to lungs
  - Amputations lower extremity
  - Ingrown & ingrowing toenails
  - Soft tissue surgery
  - Simple skin grafts
  - Hyperalimentation management
  - Insertion & management central venous lines
  - Insertion & management pulmonary arterial lines
  - Ventilator management < 48 hours

Exclusions

- Gastric Procedures for Morbid Obesity
- Hepatic Lobectomy
- Esophageal Resection
- Hysterectomy
- Nephrectomy
- Radical Neck Dissection
- Flexible Colonoscopy
- Major Burn Management
- Laparoscopy
- Advanced Laparoscopy

Problems with Phase 2

- Does not allow a lookup of any individual procedure to see if privileges have been granted
- Does not allow annual appraisal of procedures performed that were not privileged
- * Does not allow long term evaluation of privileges not exercised
Privileging by the (ICD-9) Numbers

Phase 3

Building Core Privileges

General Surgery 2005

- Excision thyroid, parathyroid, adrenal: 40
- Excision, dissection lymphatics: 24
- Excision, repair of spleen: 10
- Incision, excision, resection colon: 72
- Incision, excision, resection small bowel: 37
- Incision, excision, resection stomach: 31
- Incision, excision, resection breast: 21
- Incision, excision, resection liver: 14
- Incision, excision, biliary tract & gallbladder: 40
- Management & repair abdominal wall hernia: 20
- Management of perianal disease: 43
- Computed tomography: 8
- Selected Vagotomy: 19
- Soft Tissue Surgery: 12
- Varicose vein surgery: 6
- Total: 453
