- Interested in beta testing: contact your Midas+ Account Manager

What's Happening with Midas+Juvo?

- ### Platform - Beta
- Security
 - Facility Definition
 - Role Based Security
 - Activity Audit (user level)
 - Dashboards
 - Interactive
 - Modular and Overall Care Performance based
 - Focus Form Definition
 - User Defined Focus Form Definition
 - Customization of Distributed Forms
 - Dictionary
 - Interface and Standard Dictionary mapping
 - Document Generation
 - Distributed
 - User Defined
 - Standard Reports
 - Indicator Generation and Distributed Profiles
 - Distributed
 - User Defined
 - Patient Tracking
 - Worklist
 - System Management/Maintenance
 - Patient Data Management
 - i.e. merging, system parameters, file load
- Insight-Driven Transformation - 2016 Midas+ Annual Symposium 36

Infection Surveillance - Beta

- Infection Event Entry
 - Documentation and Data Collection Forms based on NHSN required reporting
 - User Customized Focus Form Definition
 - Automated data compilation
 - Data Import from Interface
- NHSN Submission
 - CDA file generation and submission
- Infection Surveillance Interactive Dashboard
- Infection Surveillance Standard Reports
- Worklist based on work item generation
 - Distributed rule based alerts
 - User Defined rule based alerts
- Infection Surveillance Document Generation
 - Distributed
 - User Defined
- Infection Surveillance Distributed Indicator Profiles
 - Distributed
 - User Defined

Risk Management - Beta

- Event Data Entry
 - Common Format based data entry forms
 - User Customized Focus Form Definition
- PSO Event Management
 - Data entry and structure
 - Event association (linking)
- CDA file generation for upload to PSO
- Remote Data Entry of Events
- Referral Process
 - Worklist
 - Email Hyperlink
- Risk Mgt Interactive Dashboard
- Risk Mgt Standard Reports
- Worklist based on work item generation
 - Distributed rule based alerts
 - User Defined rule based alerts
- Risk Mgt Document Generation
 - Distributed
 - User Defined
- Risk Mgt Distributed Indicator Profiles
 - Distributed
 - User Defined

Case Management - Beta

- Documentation and Data Collection Tools
 - Payer Authorization
 - Avoidable Days
 - Utilization Review
 - Care Transitions Assessment
 - Care Coordination
 - Post Discharge Follow Up
 - Physician Advisor Review
- 3rd Party Integration
 - InterQual's CERMe
 - Aidin's Post-acute Transition Platform
 - Curaspan's Discharge Central
 - MCG's Indicia

- Case Mgt Standard Reports
- Worklist based on work item generation
 - Distributed rule based alerts
 - User Defined rule based alerts
- Case Mgt Document Generation
 - Distributed
 - User Defined
- Case Mgt Distributed Indicator Profiles
 - Distributed
 - User Defined

Clinical Surveillance - Beta

- Real-time based Alerts
 - 7 Clinical Condition Alerts
 - 9 Infection Complication Alerts
 - 10 Medication-related Alerts
 - 13 Laboratory Alerts
- Alert Fatigue embedded functionality
- Facility control of alert activation
- Clinical Surveillance Standard Report Library
- Worklist based on Alerts

Beta Release Summary

- August 2016
 - Infection Surveillance
 - Risk Management
 - Case Management
 - Clinical Surveillance
- December 2016
 - Patient Experience

What Are The Takeaways?

- ✓ Midas+ values each of you.
- ✓ Midas+ is committed to partner with you.
- ✓ Juvo is a current addition to our offerings, not a replacement.
- ✓ Juvo will have capabilities that will not be in our core products.
- ✓ Midas+ is supporting and enhancing our core products.
- ✓ Midas+ looks forward to the future with you.
